

# Your Bishop Tonnos Catholic School Council Presents:

## Will your child be equipped to succeed in the future economy?

### A Smart Strategic Approach to PSE

The number and variety of post-secondary education (PSE) choices can be confusing and overwhelming. Added to that is the very real possibility of students graduating with a mountain of debt and few transferable skills.

Bishop Tonnos Catholic Secondary School Council is pleased to offer a presentation that will provide parents with perspective and important insights to help their children weigh post-secondary options. Find out what it will take to be successful in a dynamic economy that demands agility.
